EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claims 26 and 40 have been canceled.

NOTE: it is apparent that these claims were meant to be canceled (as claim 2 was canceled) since the limitations of these dependent claims have been incorporated into independent claims 25 and 39, respectively.

Continued Examination Under 37 CFR 1.114

2. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn

pursuant to 37 CFR 1.114. Applicant's submission filed on 6/14/06 has been entered.

Allowable Subject Matter

3. Claims 1,3-25,27-39 and 41-65 are allowed.

4. Claims 1,25 and 39 are linking claims and are allowable.

Accordingly, the restriction requirement as to the encompassed inventions is hereby withdrawn and claims previously withdrawn from consideration which depend from these linking claims are no longer withdrawn from consideration since these dependent claims depend from or otherwise include each of the limitations of an allowed linking claim.

In view of the above noted withdrawal of the restriction requirement as to the linked inventions, applicant(s) are advised that if any claim(s) depending from or including all the limitations of the allowable linking claim(s) be presented in a continuation or divisional application, such claims may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 44 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Art Unit: 2872

5. The examiner's statement of reasons for allowance concerning claims 3-6 and 27-30 was given previously. Regarding the other claims, applicant's remarks concerning the newly added limitations with respect to the tongue shaped sections are persuasive. The prior art does not teach or suggest a holding device for attaching a microscope drape including the specific arrangement for these tongue shaped sections as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Moses discloses a holding device for a drape including projecting sections.
